

Sheltie (Shetland Sheepdog) Lost March 21st in Hanover

"Dewey" looks like a tiny "Lassie" dog & is tan and white. She was lost from the parking lot of Robert's vet hospital on Rt. 53 in Hanover. She will not find home as she is from Marshfield. She's confused, scared & is looking for food, familiar scents & places to rest. She is using yards while the owners are inside or away at work. She's been spotted & chased so she runs further away each time. **PLEASE DO NOT CHASE HER**. She was 16 lbs. & may look "fine" but has lost almost half her body weight. If you see her or think you may have, please call us, any hour. We need the time & exact location or street & nearest cross street. Old sightings are wanted as well. Catching a lost dog can be extremely difficult. It can take weeks **or months** without your calls. Her sister "Huey" was lost at the same time but was saved after 44 days using a dog-size humane cage trap. She was rescued within hours after several sighting calls. We rely on the kindness of people in the neighborhoods to keep their eyes open & ask your help in checking your yard, under decks, bushes and in sheds or barns. Dewey may be in your yard one night or many; she will choose a place where she can rest without threat from weather or predators. Dogs & cats may act agitated for hours & alert you that she is nearby. Please don't chase, approach, shine lights on or scare her away. **Just call**. We apologize for the all the flyers & being in your neighborhoods. If you see flyers, we are still searching for her. We are exhausted but don't want to give up on Dewey. We greatly appreciate your time, patience & calls.

THANK YOU!
